f) Introduction of a **new meeting website**

The Secretariat introduces some new features to the WCPFC meetings website. The changes are designed to improve the user experience during meetings, by:

- Linking meeting documents to agenda items, allowing the navigation and searching for documents to be agenda-based.
- Introducing an activity feed where notifications and meeting updates can be found, instead of relying on email.
- Adding a full-text search feature allowing users to find content contained within PDF documents by search terms, either for the current meeting or across all meetings.

g) Guidelines on the use of the **Online Discussion Forum**

The following guidelines are generally proposed for the use of the ODF for SC20:

- 1) Timing: 30 days before the start of SC to the end of the first week of SC
- 2) This website is accessible to any approved SC20 participants;
- 3) Commission-funded SC projects that will not be presented at the plenary will be considered on the ODF, and their outputs will be briefly reviewed as needed under the Agenda Item 10 (SC Work Program and Budget) to finalize the project;
- 4) All stock assessment papers should be available on the ODF to facilitate more technical discussions on aspects of the assessment while leaving room for interventions during the SC plenary to address higher-level issues. In some cases, technically challenging questions can be raised on the ODF, and authors can respond to these questions during the SC plenary, indicating that they will be addressed at the plenary session;
- 5) Other information papers can be posted on the ODF if requested by the authors who wish to receive feedback on their papers, as well as by the SC Chair/Vice-Chair or theme convenors who want to cover these papers under their sessions but could not do so due to time constraints. Authors are fully responsible for providing feedback to any comments or questions as needed; and

- 6) After the closure of the ODF, a Summary of the SC20 Online Discussion Forum will be produced and noted under the Agenda Item "Other Matters." Appropriate action will be taken under the relevant agenda item as required if necessary.

For the efficient Q&A process, all participants are requested to prefix a comment or question when starting your input as shown below for efficient response by the authors:

- COMMENT: My comment on section 3.5 of the paper SC20-GN-IP-01 is ...
- QUESTION: My question on section 3.5 of the paper SC20-GN-IP-01 is ...

h) Other issues?
