

TECHNICAL AND COMPLIANCE COMMITTEE

Twenty-First Regular Session

24 September to 30 September 2025

Pohnpei, Federated States of Micronesia (Hybrid)

---

SUMMARY OF THE REPORTS RECEIVED UNDER TROPICAL TUNA CMMS  
FROM 2023 TO 2025

---

WCPFC-TCC21-2025-IP02<sup>1</sup>

8 September 2025

Submitted by the Secretariat

### Purpose

1. This paper provides for information of TCC21 the updated versions of tables and notes that summarize the reports made in 2023 - 2024 and part of 2025 by CCMs under *Conservation and Management Measure for Bigeye, Yellowfin and Skipjack* ([CMM 2021-01](#) and [CMM 2023-01](#)). The information in this paper is based on recent information received by the Secretariat. It should be noted that some related replies to CMR or recent reporting may not be reflected in this paper.

### Updated Tables and Notes

2. The Tables and Notes in this paper are categorized as follows:
  - Summary of Notifications and Reporting to WCPFC related to additional FAD Set management in the purse seine fishery operating 20N to 20S: 2023 – 2024 and 2025 to date (**Tables 1 – 3**);
  - WCPFC – IATTC Overlap Area (WCPFC9 Decision, paragraph 80) (*notes*);
  - Summary of Notifications to increase bigeye longline catch limit in 2024 and 2025 (footnotes to [CMM 2023-01 Attachment 1, Table 3](#)) (*notes*);
  - Monthly reports of bigeye longline catches (CMM 2021-01 paragraph 37 and CMM 2023-01 38) (**Tables 4 – 5**);
  - Summary of Notifications of purse seine effort and/or catch limits for EEZs in (footnote 2, to [CMM 2023-01 paragraph 24](#)) (*notes*); and
  - Supplementary summary information related to notifications under CMM 2023-01 13 footnote 1 (**Annex 1, Tables 6 – 8**).
3. Tables 1, 2 and 3, below relate to notification and reporting on additional FAD Set management.

---

<sup>1</sup> This paper updates [WCPFC-TCC20-2024-IP07](#) issued on 8 August 2024

**Table 1:** Summary of Notifications and Reporting to WCPFC related to additional FAD Set reduction in the purse seine fishery operating 20N to 20S during 2023 (CMM 2021-01 paragraph 15 and footnote 1) - as of 3 September 2025

FLAG CCMs	Advice of Footnote 1 Notifications: Vessels to which the 1 July – 30 September FAD closure will not apply in 2023	2023 Choice of additional high seas FAD set management option (para 15)

<sup>17</sup> Has previously advised that CCM has banned the use of FADs in the Pacific Ocean north of 20S

<sup>18</sup> Notified of 24 purse seine vessels to be managed under PNA 3IA in FSM waters during July – 15 August 2025

<sup>19</sup> Notified of 10 purse seine vessels to be managed under PNA 3IA in RMI waters during July – 15 August 2025

<sup>20</sup> Notified of 23 purse seine vessels to be managed under PNA 3IA in Nauru waters during July – 15 August 2025

<sup>21</sup> CCM has reported in AR Pt2 (CMM 2023-01 14) its vessels are not authorised to fish on the High Seas

<sup>22</sup> Notified of 11 purse seine vessels to be managed under PNA 3IA in Papua New Guinea waters during July – 15 August 2025

<sup>23</sup> Notified of 5 purse seine vessels to be managed under PNA 3IA in Solomon Islands waters during July – 15 August 2025

<sup>24</sup> Notified of 7 purse seine vessels to be managed under PNA 3IA in Tuvalu waters during July – 15 August 2025

4. The applicable WCPFC decisions and notes on the WCPFC – IATTC Overlap Area are as follows:

(a) The WCPFC9 decision on the application of measures in the part of the WCPF Convention Area that overlaps with the IATTC Convention Area says that in the case of a WCPFC member who is also an IATTC member, and who has vessels on both records/register of IATTC and WCPFC, the corresponding flag Member shall decide and notify both organisations under which of the two Commission measures those vessels shall operate when fishing in the overlap area with IATTC and WCPFC. If a CCM is a member of only one RFMO, the rules of that RFMO will apply in the overlap area between WCPFC and IATTC, even if the CCM is a cooperating non-member of the other RFMO. (see WCPFC9 Summary Report, paragraph 80)

(b) CMM 2021-01 paragraph 10 states that:

Where flag CCMs choose to implement IATTC measures in the overlap area, any calculation of limits for the Convention Area (excluding the overlap area) that are done on the basis of historical catch or effort levels, shall exclude historical catch or effort within the overlap area. Notwithstanding decisions on application of catch and/or effort limits, all other provisions of this measure apply to all vessels fishing in the overlap area.

5. In 2022, the Secretariat received two updates of Member's choice of WCPFC/IATTC measures in the Overlap Area, and no updates were received in 2023, 2024, or 2025.<sup>25</sup> Accordingly, in 2022 - 2025, or as otherwise specified the following five CCMs could apply IATTC measures in the Overlap Area:<sup>26</sup>

- Ecuador – As a WCPFC Cooperating Non-Member which is a contracting party of IATTC;
- El Salvador – As a WCPFC Cooperating Non-Member which is a contracting party of IATTC;
- Panama – As a WCPFC Cooperating Non-Member which is a contracting party of IATTC;
- European Union – In accordance with letter received by WCPFC on 2 April 2013; and
- United States of America – In accordance with letter received by WCPFC on 8 July 2020.

6. In 2024, the Secretariat received notifications from two CCMs relating to an increase in their respective bigeye longline catch limit together with the commitment to apply a proportionate increase in observer coverage level (e.g., observer + Electronic Monitoring (EM)) above the minimum 5% ROP coverage level<sup>27</sup>:

- **Republic of Korea** - will increase its bigeye tuna catch limit by 10% in 2024, through achieving the necessary increase in observer coverage with human observer and EM coverage.
- **Chinese Taipei** - will increase its bigeye tuna longline catch limit by 2% in 2024, with a commitment to increase collective observer coverage by the end of 2024 from 5% to 6%.

---

<sup>25</sup> France advised that French Polynesia would apply WCPFC rules in the overlap area from 1 Jan 2022 – 31 Dec 2024. China has advised that will apply both IATTC and WCPFC rules in overlap area, including VMS and HSBI, but catches in the overlap area are to be attributed to WCPFC.

<sup>26</sup> The list is a subset of the list of notifications received for the overlap area, the complete list of notifications can be accessed by authorized CCM users from the WCPFC Secure CCM side: <https://www.wcpfc.int/overlap-area-iattc>. During 2022 – 2024, Nicaragua, as a WCPFC Cooperating Non-Member and a contracting party of IATTC, was able to apply IATTC measures in the Overlap Area.

<sup>27</sup> See footnote to [Attachment 1, Table 3, CMM 2023-01](#).

7. In 2025, the Secretariat received notifications from three CCMs relating to an increase in their respective bigeye longline catch limit together with the commitment to apply a proportionate increase in observer coverage level (e.g., observer + Electronic Monitoring (EM)) above the minimum 5% ROP coverage level:
- **China** – will increase its bigeye tuna catch limit by 10% in 2025, by committing to maintain a minimum of 5% observer coverage under the ROP through human observers and increasing an additional 5% coverage through EM systems or human observers.
  - **Republic of Korea** - will increase its bigeye tuna catch limit by 10% in 2025.
  - **Chinese Taipei** - will increase its bigeye tuna longline catch limit by 2% in 2025, by committing that the collective observer coverage by the WCPO, combining LTLL and STLL, will be increased from 5% to 6% by the end of 2025. Chinese Taipei also advised that the additional 1% coverage is to be achieved by deployment of human observers from authorised ROP programme
8. **Tables 4 and 5** provides the summary of monthly reports of bigeye longline catches in relation to the applicable catch limits (CMM 2021-01 paragraph 37 and CMM 2023-01 paragraph 38):

**Table 4:** Summary of CCM reporting of bigeye longline catch by WCPFC in accordance with CMM 2021-01 paragraph 37 - as of 3 September 2025 (Note: some CCMs replies to dCMR or most recent reporting to WCPFC may not be reflected below)

FLAG CCMs	2023		2024	
	Catch / Limit (Mt) <sup>14</sup>	% of limit	Catch / Limit (Mt) <sup>14</sup>	% of limit
<b>China</b>	5394 / 8724	62%	4754 / 8724	55%
<b>Indonesia</b>	86 / 5889	< 1 %	29 / 5889	< 1 %
<b>Japan</b>	6228 / 17765	35%	8743 / 17765	49%
<b>Republic of Korea</b>	13751 / 13942	<b>99%</b>	12350 / 15336	80%
<b>Chinese Taipei</b>	9704 / 10481	93%	9982 / 10691	<b>93.4%</b>
<b>United States of America</b>	3553 / 3554	<b>99%</b>	5334 / 6554	81.4%

**Table 5:** Summary of CCM reporting of bigeye longline catch by WCPFC in accordance with CMM 2023-01 paragraph 38 - as of 3 September 2025

FLAG CCMs	Catch / Limit (Mt)	2025	
		Reporting Period	% of limit
<b>China</b>	1891 / 9596	1 Jan – 31 July	20%
<b>Indonesia</b>	8 / 5889	1 Jan – 31 July	< 1 %
<b>Japan</b>	3586 / 17765	1 Jan – 31 July	20%
<b>Republic of Korea</b>	5597 / 15336	1 Jan – 31 July	36%
<b>Chinese Taipei</b>	4920 / 10691	1 Jan – 31 July	46%
<b>United States of America</b>	2683 / 6554	1 Jan – 31 July	41%

9. In relation to limits on purse seine activities in EEZs, in 2023 no new notifications were received of EEZ limits for purse seine effort and/or catch of skipjack, yellowfin and bigeye tuna (CMM 2021-01 paragraph 24). In 2024, the Secretariat received notifications (under [CMM 2023-01 paragraph 24](#) footnote 2) from two CCMs advising they do not have established purse seine fisheries taking skipjack, yellowfin or bigeye tuna within their EEZs. Accordingly, the [CMM 2023-01 paragraph 24](#) provisions do not apply to: **French Polynesia** and **Republic of Korea**.

## Recommendation

10. TCC21 is invited to note this paper.

# Annex 1

**Table 6:** List of vessels that were notified under CMM 2021-01 14 footnote 1 in 2023 and under CMM 2023-01 footnote 1 in 2024 and 2025

**Table 7:** Summary of the numbers of vessels that notified the Commission of the footnote 1 exemption in the Tropical Tuna CMM, and their combined numbers of FADs sets and catches during the FADs closure 2018 – 2023 (source: SPC, 28 July 2024).

Year	Vessels		FAD sets	Total catch (MT)			
	Notifying	Fished		Skipjack	Yellowfin	Bigeye	Total
2018	49	47	747	34,921	2,062	872	37,855
2019	55	55	638	35,484	1,670	394	37,548
2020	53	46	722	32,026	2,276	960	35,262
2021	66	51	633	15,175	10,032	552	25,759
2022	74	51	850	30,822	1,886	1,056	33,764
2023	86	39	649	25,153	1,620	732	27,505

**Notes**

- 1 Excludes Archipelagic waters
- 2 Tuna species catch as reported on logbooks
- 3 Based on vessels notifying under tropical tuna measure footnote 1
- 4 Represents the total FAD sets during the three-month closure period and the catch by species were summed across vessels
- 5 2023 data are provisional

**Table 8:** Summary of the numbers of vessels that notified the Commission of the footnote 1 exemption in the Tropical Tuna CMM, and their combined numbers of FAD sets and catches during the FAD closure 2024 (source: SPC, 24 July 2025).

Year	Vessels		FAD sets	Total catch (MT)			
	Notifying	Fished		Skipjack	Yellowfin	Bigeye	Total
2024	74	31	175	4,406	719	246	5,372

*Notes*

- 1 Excludes Archipelagic waters
- 2 FAD sets and Tuna species catch as reported on logbooks
- 3 Based on vessels that have been notified under tropical tuna measure footnote 1
- 4 Represents the total FAD sets during the 1.5-month closure period and the catch by species were summed across vessels
