The following guidelines are proposed for using the ODF in support of SC22:

- 1) The ODF will be accessible to all registered SC22 participants.

- 3) Stock assessment papers will be made available on the ODF to facilitate technical discussions on aspects of the assessments. This will allow the SC plenary to focus on higher-level issues. Technical questions may be raised on the ODF, with authors responding either on the forum or during the SC plenary, depending on the nature of the inquiry.

- 4) Other information papers may also be posted on the ODF upon request by the authors seeking feedback, or by the SC Chair/Vice-Chair or theme convenors who wish to include papers that could not be covered during their sessions due to time constraints. Authors are expected to respond to comments or questions as appropriate.
- 5) After the closure of the ODF, a summary of ODF communications will be prepared and noted under the agenda item "Other Matters." Any necessary follow-up will be taken under relevant agenda items.
- 6) To facilitate efficient Q&A, all participants are asked to prefix their input as follows:
 - COMMENT: My comment on section 3.5 of the paper WCPFC-SC22-2026-GN-WP01 is ...
