

TECHNICAL AND COMPLIANCE COMMITTEE
Seventh Regular Session
Pohnpei, Federated States of Micronesia

ANNUAL REPORT FOR THE WCPFC RECORD OF FISHING VESSELS

WCPFC-TCC7-2011/24
26 August 2011

Paper prepared by the Secretariat

ISSUES:

1. This is a report on the performance of CCMs with respect to the RFV and Interim Register. Issues with respect to the RFV are highlighted in WCPFC-TCC7-2011/22.
2. The Secretariat has completed its trial of the direct entry feature on the RFV, with future enhancements and expansion of the feature to all CMMs open for discussion.
3. The linking of the RFV and the VMS registries are a positive move towards integrated fisheries information management and is open for consideration.
4. The issues of double listing on the RFV and the IUU list are further discussed in the above noted paper, WCPFC-TCC7-2011/22.

DECISIONS/RECOMMENDATIONS:

TCC7 is invited to advise and recommend to the Commission:

- a. Approval of the direct entry scheme for extension to all CCMs.
- b. Approval for the 'batch entry' trial in 2012.
- c. Approval for the VTAF to be part of regular requirement.
- d. Confirmation of a resolution to the potential of double listing on the RFV and IUU list.

DISCUSSION:

Introduction

1. The Record of Fishing Vessels (RFV) is an important tool in the set of WCPFC Conservation and Management Measures (CMMs). The WCPFC Convention Article 24, Paragraph 5 notes that each Member of the Commission is required to provide to the Commission as detailed in Annex IV. Further, CMM 2009-01 requires that each member of the Commission shall maintain a record of fishing vessels entitled to fly its flag and authorized to fish in the Convention Area beyond its national jurisdiction, and shall ensure that all such fishing vessels are entered in that record. The information required to be submitted to the Commission is found in Par.6 criteria (a) to (r) where "each member of the Commission shall submit, electronically where possible, to the Executive Director by 1 July 2005 with respect to each vessel entered in its record". After 1 July 2005, each CCM is required to notify the Executive Director within 15 days or in any case within 72 hours before commencement of fishing activities in the Convention Area of:

- a. any vessel added to its Record along with the information set forth in paragraph six (6);
- b. any change in the information referred to in paragraph six (6) with respect to any vessel on its Record; and

- c. any vessel deleted from its Record along with the reason for such deletion in accordance with Article 24(6) of the Convention.

Status of the WCPFC Record of Fishing Vessels

1. At the time of preparing this paper, 22 CCMs, and six Cooperating Non-Members (Ecuador, El Salvador, Indonesia, Thailand, Belize and Panama), and four Non-Members (Sierra Leone, Singapore, Cambodia and Saint Kitts And Nevis) had submitted 5,948 records of their respective fishing vessels the Executive Director (**Attachment 1**). These cover small, medium and large-scale tuna fishing vessels, vessels targeting tuna and other species, support vessels, and research and training vessels.
2. Not all the information required in CMM 2009-01 has been provided by all CCMs that submit their vessel records. **Attachment 2** provides the percentage compliance by Members from the information they provided for Para 6 of CMM 2009-01. There are problems in the type and quality of information provided by CCMs to the RFV as opposed to the Interim Register where all information is mandatory prior to placing the vessel on the Interim Register.
3. Before 1 July of each year, each member shall submit to the Executive Director a list of all vessels that appeared in its record of fishing vessels at any time during the preceding calendar year, together with each vessel's WCPFC identification number (WIN) and an indication of whether each vessel fished for highly migratory fish stocks in the Convention Area beyond its area of national jurisdiction. The indication shall be expressed as (a) fished, or (b) did not fish. Seventeen (17) countries submitted their fished or did not fish report for 2010 (Australia, Belize, China, Cook Islands, Spain, Fiji, France, Federated States of Micronesia, Korea, Japan, Lithuania, New Caledonia, New Zealand, Portugal, Tonga, Chinese Taipei and United States).
4. February this year marked the first 12 months of operation for the Interim Register. The quality of the data in the Interim Register is visibly better.

Interim Register

The interim register of Non-Member Carriers and Bunker Vessels currently has 22 vessels from 4 flag states (**Attachment 3**). Data on this register is more complete than the RFV due to the requirement that all data must be provided to the Secretariat before it is listed on the Register.

Developments related to the WCPFC Record of Fishing Vessels

Enhancements to the WCPFC Record of Fishing Vessels

1. On December of 2010, nine (9) CCMs were given the privilege to directly enter their data on the Record of Fishing Vessels giving them the control and quicker data entry and posting by the members themselves, with the Secretariat to focus on the Data Quality checks and assist in updating the RFV and Interim Registry in a more timely manner. This would remove the Secretariat staff from the requirement to enter the data a second time and thus reduce potential data entry errors. **Attachment 4** provides the instructions for direct data entry. This direct entry capability is now being extended to all CCMs. A 'batch entry' trial is being developed for 2012 to again facilitate member's direct entry of data.
2. The details for a vessel on the RFV sometimes differ from the details for a vessel on the VMS Register thus resulting in potential double tracking of the same vessel, double record keeping and additional costs to the Commission. One way to reduce this would be to ensure that the Vessel Tracking Agreement Form (VTAF) for the VMS register would be a mandatory element to be included in the application for listing the vessel on the RFV. Any differences in vessel details could be noticed immediately and thus

minimize additional work and costs. It would also be a first step in the integration of information systems for fisheries management in the Commission.

Number of active vessels by vessel type for the Record of Fishing Vessels (RFV)

DIRECT DATA ENTRY TRIAL – QUICK GUIDE

New Vessel Entry

- To use this feature, follow these steps:
 - Connect PC computer to the Internet
 - Open your favorite Internet browser such as Internet Explorer
 - Enter: <http://intra.wcpfc.int>
- Enter your username and password. For example, if your username is *rfv.fm*, then enter the details as shown below, remembering that *wcpfc* is required for username:
 - *Username: wcpfc\rfv.fm*
 - *Password:*
- Once logged in, click on Record of Fishing Vessels (RFV) application icon
- Select an option shown. In this case click on the **NEW** option. The data entry screen will then appear to be filled in. *
- After the relevant fields are filled in, click on the **OK** button.
- If you wish to attach an attachment e.g. photo of the vessel. Click on the **ATTACH FILE** option on the top left hand corner and follow instructions from there on. After attachment always remember to click on the **OK** button for the template to close.

Updating Vessel Record

- Click on Record of Fishing Vessels (RFV) application icon
- Search for the vessel using the search engine. It is best to search by the International Radio Call Sign (IRCS) or Country Registration Number for these are unique numbers.
- Once you find the vessel, open the vessel record and you will see on the top it gives you options. Select **Edit Item** and from there you can edit the record.
- If you wish to delist a vessel, scroll down to **Vessel Status** *. Click on the drop down and it will give you a list of options. Select **DELETE** and enter the reason of deletion in the **Notes** section to be in accordance with CMM2009-01 par. 7 criteria (c).

**When adding on any new vessel or updates, always check if the vessel already exists or not by using the search engine. You can search the vessel by Name, IRCS or Registration Number.*
