2. Risk classification and definition of confidentiality

7. Data covered by these Rules and Procedures will be classified in accordance with the risk classification methodology included in the Commission's Information Security Policy (ISP), which reflects *inter alia* the damage that would be done to the operations or creditability of the Commission as a consequence of the unauthorized disclosure or modification of such information. The classification is attached as Table 1.

8. Data covered by these Rules and Procedures were determined to be either public domain or non-public domain data in accordance with the definition of confidentiality established in the Commission's ISP.

3. Dissemination of Public Domain Data

9. Data in the public domain shall not reveal the individual activities of any vessel, company or person and shall not contain private information. Catch and Effort data in the public domain shall be made up of observations from a minimum of three vessels.

10. Annual catch estimates and aggregated catch and effort data that can be used to identify the activities of any vessel, company or person are not in the public domain.

11. Except for data as described in Paragraphs 9 and 10, the types of data listed in Appendix 1 have been designated to be Public Domain data.

12. Public Domain data shall be available to any persons for (a) downloading from the Commission's website and/or (b) release by the Commission on request.

13. The website should contain a statement describing the conditions associated with the viewing or downloading of Public Domain Data (for example, that the source of the data must be acknowledged), and should require the person requesting the data to "Accept" these conditions before viewing / downloading can begin.

4. Dissemination of Non-Public Domain Data

4.1 Definition of Non-Public Domain Data

14. Subject to the decisions of the Commission, all types of data not described in paragraph 11 shall be referred to as Non-Public Domain data.

17. The WCPFC Secretariat shall log and report to the Commission all access and dissemination of Non-Public Domain data, including the name and affiliation of the person, the type of data accessed or disseminated, the purpose for which the data were requested, the date when the data were requested, the date when the data were released and authorizations that may have been required.

Officers of the Commission and its subsidiary bodies shall have access to the data necessary to perform their WCPFC duties. All such persons shall sign a Confidentiality Agreement with the Executive Director and maintain the data security standards of the Commission in respect of data to which they have access. The Executive Director shall maintain a Register of all such persons (including the purpose for which they require access to the data) and make the Register available to a CCM on written request.

4.4 Access to Non-Public Domain data by CCMs

19. CCMs shall have access to Non-Public Domain data to serve the purposes of the Convention, including data:

4.5 Exchange of data with other regional fisheries management organisations

29. If the Commission enters into agreements for the exchange of data with other regional fisheries management organisations (RFMOs), such agreements must include requirements that the other RFMO provides equivalent data on a reciprocal basis and maintains the data provided to them in a manner consistent with the security standards established by the Commission. The data which may be exchanged is specified in Appendix 4. At each annual session the Executive Director will provide copies of data exchange agreements that exist with other RFMOs and a summary of the data exchanges that occurred during the previous 12 months under such agreements. For the purposes of these Rules and Procedures, the following organisations will be treated as being equivalent to a RFMO:

- International Scientific Committee (ISC)
- Secretariat of the Pacific Community (SPC)

4.6 Disseminations of Non-Public Domain data in other circumstances

30. Non-Public Domain data will be made available by the Secretariat to any persons² if the CCM that originally provided that data authorises the Commission to release them. In cases where a CCM elects to provide an ongoing authorisation for the release of such data, the CCM may at any time cancel this authorisation by notifying the Secretariat that it has revised its earlier decision. Unless otherwise requested by the provider of the data:

² Including universities, researchers, NGOs, media, consultants, industry, federations, etc

- (a) Persons that request Non-Public Domain data shall complete and sign the Data Request Form and sign the Confidentiality Agreement and provide them to the Commission in advance of obtaining access to said data.
- (b) The Data Request Form and Confidentiality Agreement shall then be forwarded to the CCM that originally provided the requested data and the provider shall be requested to authorise the Commission to release the data.

5. Periodic Review

33. The Commission or its subsidiary bodies will periodically review these Rules and Procedures, and subsidiary documents, and the rules and procedures referred to in paragraphs 23 and 24 above, and amend these if necessary.

6. Final Clause

34. These Rules and Procedures do not prevent a CCM from authorizing the release of any data it has provided to the WCPFC.

Table 1. Types of information and confidentiality classification.

Information type	Risk classification
Operational level Catch Effort data	High
Annual catch estimates stratified by gear/flag and species for the WCPFC Statistical Area.	Lowest
Annual catch estimates stratified by gear/flag, EEZ and species.	Lowest
Aggregated catch and effort data stratified by gear/year/month, 5x5 (LL) or 1x1 (surface), and flag.	Low
Records of vessel unloading	Medium
Transshipment consignments by species	Medium
[Biological data (if adequate time has passed to allow the scientists that organised the for collection of such data to publish a paper analysing it)]	Lowest
Tagging data	Lowest
WCPFC Record of Fishing Vessels (Authorization to fish/Vessel Record)	Lowest
Vessel and gear attributes from other open sources	Lowest
Any vessel record established for the purpose of the Commission's VMS	Lowest
Oceanographic and meteorological data	Lowest
Movements of fishing vessels recorded at a fine resolution / VMS Vessel position, direction and speed	High
Boarding and Inspection Reports	High

The security controls implemented by the Commission will reflect the classifications given to each information type. Where categories within an information type cover two classifications, the higher has been used. If a data type covers more than one row then the higher risk classification would apply.

Table 2. Annotations on information types mentioned in Table 1.

Information Type	Annotations
Operational level Catch Effort data	Collected on fishing vessel logbooks and by observers.
Compliance-related observer data	Excludes operational catch and effort data, biological data and vessel and gear attributes.
Biological data	Biological data include size data, data on gender and maturity, genetic data, data on hard parts such as otoliths, stomach contents, and isotopic N15/C14 data collected by observers, port samplers and other sources. “Biological data” in this context does not include information identifying the fishing vessel, for example, which would otherwise alter its security classification.
Tagging data	Tagging data include species, release and recapture positions, lengths and dates. “Tagging data” in this context does not include information identifying the fishing vessel that recaptured the tagged tuna, for example, which would otherwise alter its security classification.
WCPFC Record of Fishing	Vessels (Authorization to fish/Vessel Record) Covers vessels fishing in the WCPFC Convention area outside of waters under their national jurisdiction.
Vessel and gear attributes from other sources	Includes data collected by observers and port inspectors. Covers all vessels (i.e. includes vessels restricted to national jurisdiction – domestic fleets) Includes electronic equipment.
Oceanographic and meteorological data	“Oceanographic and meteorological data” in this context does not include information identifying the fishing vessel that collected the information, for example, which would otherwise alter its security classification.
Certified observer personnel	If identified by individual then Risk Classification would be assigned to HIGH.
Certified inspection personnel	If identified by individual then Risk Classification would be assigned to HIGH.
Violations and infringements, detailed	May cover Individual Violations and infringements pending investigation and/or prosecution. Summarised information included in Annual WCPFC TCC Report from CCMs. Includes compliance information collected by observers.
Economic data	Insufficient information currently available to determine Risk Classification.
