## **Explanatory Note**

### **EU proposal on Catch Documentation Scheme for the WCPFC**

Following the discussions held at TCC6, the EU submits for the consideration of WCPFC7 this proposal for the development of a Catch Documentation Scheme for the Commission to cover bigeye, yellowfin, skipjack and swordfish catches.

This proposal is intended to help support the implementation of conservation and management measures, improve control and data gathering as well as scientific research, for tropical tunas –bigeye, yellowfin and skipjack - and swordfish falling under the WCPFC competence. It considers the pressure on these stocks in the West and Central Pacific Ocean, the impact which market factors have on these resources and fisheries, and the need to control trade flows in order to combat illegal, unreported and unregulated fishing.

The proposal is consistent with the recommendations of the Kobe II workshop, notably for ensuring compatibility with already existing certification schemes being implemented, consistency across RFMOs and use of electronic systems to enhance efficiency, effectiveness and utility.

Furthermore, the EU fully supports the commitment undertaken in the Kobe process for technical assistance and capacity building support to be provided to small island developing countries, including through the Special Requirements Fund of the WCPFC, but also on a bilateral basis.

This draft CMM, just like all relevant EU policies and legislation, rests on the premise that flag States have the duty to ensure that their vessels conduct their fishing activities in a responsible manner, fully respecting WCPFC conservation and management measures. In addition, there is a need for improvement and strict control over all the components involved in tuna and tuna-like species fisheries.

Moreover, importing States have a complementary role to play to ensure compliance with WCPFC CMMs. An effective control of the movements of the catches, tracking of the product from the point of capture throughout the whole operation to its final market, as outlined in the proposed CMM on CDS, would therefore be a useful compliance instrument.

While port States remain responsible to promote the effectiveness of management measures adopted by regional fisheries management organizations, the flag State has the legitimate power to enforce effective measures in case of vessel's non-compliance or illegal activity. A system that attempts to attribute such powers to coastal or chartering States would therefore not be legitimate from the point of view of the EU's legislation on IUU. Catch certificates that could be issued in accordance with such scheme will not in any way replace the EU IUU catch certificate.

On the other hand, if a WCPFC CMM on CDS as proposed here by the EU is adopted, the possibility would exist for such WCPFC scheme to be recognised as substitute for the EU IUU scheme and in that case it would no longer be necessary for individual CCMs to provide documentation related to the referred EU IUU scheme.

Furthermore, in order for the WCPFC CDS to be able to serve its actual purpose, it would need to be unitary for all CCMs and provide the same information in order to have a common point of reference. By the same token, the CMM on CDS proposed by the EU is intended to apply equally to all CCMs and does not foresee derogatory provisions for any party.

As for possibilities for simplified procedures for artisanal fisheries or small fishing vessels, if such are to be agreed, the framework of operation for these types of vessel operations should be clearly defined.

**EU PROPOSAL FOR A CONSERVATION AND MANAGEMENT MEASURE ON A  
WCPFC YELLOWFIN, BIGEYE AND SKIPJACK - AND SWORDFISH CATCH  
CERTIFICATION SCHEME**

*RECOGNIZING* the impact that market factors have on the fishery;

*TAKING INTO ACCOUNT* the conservation and management measure in the Western Central Pacific Ocean that WCPFC has adopted;

*CONCERNED* by the impact that illegal, unregulated and unreported (IUU) fishing has in the WCPFC Convention area;

*REITERATING* the responsibilities of flag States to ensure that their vessels conduct their fishing activities in a responsible manner, fully respecting WCPFC conservation and management measures;

*NOTING* the need for improved and strict control on all the components involved in the yellowfin, bigeye and skipjack tunas and swordfish fisheries;

*MINDFUL* of the rights and obligations of port States to promote the effectiveness of management measures adopted by regional fisheries management organizations;

*UNDERLINING* the complementary role that importing States also have in the control of the catches of yellowfin, bigeye and skipjack tunas and swordfish to ensure compliance with WCPFC conservation and management measures;

*RECOGNIZING* that in order to have effective control of the movements of yellowfin, bigeye and skipjack tunas and swordfish, strict tracking of the product from the point of capture throughout the whole operation to its final market has to be established;

*COMMITTED* to taking steps that conform with international law, notably as regards the World Trade Organization (WTO), and to ensure that yellowfin, bigeye and skipjack tunas and swordfish entering markets of Commission Members, Cooperating Non-Members and Participating Territories (CCMs) of WCPFC and non-members of WCPFC is caught in the WCPFC Convention area in a manner that does not diminish the effectiveness of WCPFC conservation and management measures;

*UNDERLINING* that the adoption of this measure is intended to help support the implementation of conservation and management measures as well as scientific research for WCPFC yellowfin, bigeye and skipjack tuna and swordfish stocks;

*ADOPTS*, in accordance with Article 10 of the WCPFC Convention, the following measure:

## **PART I**

### **GENERAL PROVISIONS**

1. Each Commission Member, Cooperating Non-Member and Participating Territory (hereafter referred to as CCMs) shall take the necessary steps to implement a WCPFC yellowfin, bigeye and skipjack tuna and swordfish Catch Certification Scheme for the purpose of identifying the origin of yellowfin, bigeye and skipjack tuna and swordfish to which conservation and management measures apply.

2. For the purpose of this Programme:

a) "Export" means:

Any movement of yellowfin, bigeye and skipjack tuna and swordfish in its caught or processed form caught in the WCPFC area by a fishing vessel flying the flag of a CCM to the territory of another CCM or non-Member to the WCPFC, or from the fishing grounds to the territory of a CCM which is not the flag CCM of the fishing vessel or to the territory of a non-Member to the WCPFC.

b) "Import" means:

Any introduction, including for transshipment purposes, of yellowfin, bigeye and skipjack tuna and swordfish in its caught or processed form into the territory of a CCM, which is not the CCM where the fishing vessel is flagged.

c) "Re-export" means:

Any movement of yellowfin, bigeye and skipjack tuna and swordfish in its caught or processed form from the territory of a CCM where it had been previously imported.

## **PART II**

### **YELLOWFIN, BIGEYE AND SKIPJACK AND SWORDFISH - CATCH CERTIFICATES**

3. Each consignment of yellowfin, bigeye and skipjack tuna and swordfish imported into or exported or re-exported from the territory of a CCM shall be accompanied by a validated yellowfin, bigeye and skipjack tuna and swordfish catch certificate (TTSCC) and, as applicable, a validated yellowfin, bigeye and skipjack tuna and swordfish re-export certificate (TTSRC). Any such import, export or re-export of yellowfin, bigeye and skipjack tuna and swordfish without a completed and validated TTSCC or TTSRC shall be prohibited.

4. Each CCM shall provide TTSCC forms only to fishing vessels authorized to catch yellowfin, bigeye and skipjack tuna and swordfish in the WCPFC Convention area. Such forms are not transferable to another fishing vessel. Each TTSCC form shall have a unique document identification number. Document numbers shall be specific to the flag CCM and assigned to the fishing vessel.

5. Copies of TTSCC shall follow each part of split consignments or processed product, using the unique document number of the original TTSCC in order to track them.
6. CCMs shall keep copies of documents issued or received for at least two years.
7. Export, import and re-export of fish parts other than the meat (i.e., heads, eyes, roes, guts and tails) shall be exempted from the requirements of this Resolution.
8. The fishing vessel masters, or their authorized representative, or the authorized representative of the flag CCM shall complete the TTSCC, if possible electronically, by providing the required information in appropriate sections and request its validation in accordance with paragraph 9, on each occasion that they export yellowfin, bigeye and skipjack tuna and swordfish products.
9. A validated TTSCC shall include the information identified in **Annex 1** forms attached. In cases where a section of the TTSCC model does not provide enough room to completely track movement of yellowfin, bigeye and skipjack tuna and swordfish from catch to trade, the needed information section may be expanded as necessary and attached as annex. The competent authority of the CCM shall validate the annex as soon as possible, but not later than the next movement of yellowfin, bigeye and skipjack tuna and swordfish.
10.
  - a) The TTSCC must be validated by an authorized government official, or other authorized individual or institution, of the flag CCM of the fishing vessel.
  - b) The flag CCM shall validate the TTSCC for yellowfin, bigeye and skipjack tuna and swordfish products only when all the information contained in the TTSCC has been established to be accurate as a result of the verification of the consignment, and only when those products comply with all relevant provisions of the conservation and management measures.
11. Where the yellowfin, bigeye and skipjack tuna and swordfish quantities caught and landed are less than 1 metric ton or three fish, the logbook or the sales note may be used as a temporary TTSCC, pending the validation of the TTSCC within seven days and prior to export.

**PART Iibis –YELLOWFIN, BIGEYE AND SKIPJACK AND SWORDFISH – SIMPLIFIED CATCH CERTIFICATE**

12. This Part shall apply to fishing vessels of CCMs
  - a. with an overall length of less than 12 meters without towed gear; or
  - b. with an overall length of less than 8 meters with towed gear; or
  - c. without a superstructure; or
  - d. of less than measured 20 GT.
13. Catches from CCM fishing vessels referred to in point 11 which are only landed in the flag CCM of the vessels and which together constitute one consignment may be

accompanied by a simplified catch certificate instead of the catch certificate referred to in Part II, points 3-10, of this measure.

14. The simplified catch certificate shall contain all the information specified in Annex IV of this measure and shall be validated by a public authority of the CCM with necessary powers to attest the accuracy of the information.
15. The validation of the simplified catch certificate shall be requested by the exporter of the consignment upon submission to the public authority of all information specified in the specimen shown in Annex IV of this measure.

### **PART III**

#### **YELLOWFIN, BIGEYE AND SKIPJACK - AND SWORDFISH RE-EXPORT CERTIFICATES**

16. Each CCM shall ensure that each yellowfin, bigeye and skipjack tuna and swordfish consignment which is re-exported from its territory be accompanied by a validated TTSRC.
17. The operator who is responsible for the re-export shall complete the TTSRC by providing the required information in its appropriate sections and request its validation for the yellowfin, bigeye and skipjack tuna and swordfish consignment to be re-exported. The completed TTSRC shall be accompanied by a copy of the validated TTSCC relating to the yellowfin, bigeye and skipjack tuna and swordfish products previously imported.
18. The TTSRC shall be validated by an authorized government official or authority.
19. The CCM shall validate the TTSRC for yellowfin, bigeye and skipjack tuna and swordfish product only when:
  - a) all the information contained in the TTSRC has been established to be accurate,
  - b) the validated TTSCC(s) submitted in support to the TTSRC had been accepted for the importation of the products declared on the TTSRC,
  - c) the products to be re-exported are wholly or partly the same products on the validated TTSCC(s) and
  - d) a copy of the TTSCC(s) shall be attached to the validated TTSRC.
20. The validated TTSRC shall include the information identified in **Annex 2** forms attached.

### **PART IV**

#### **COMMUNICATION AND VERIFICATION**

21. Each CCM shall communicate, if possible electronically, a copy of all validated TTSCCs or TTSRCs within five working days following the date of validation, or without delay where the expected duration of the transportation should not take more than fifteen working days, to the following:
- a) the competent authorities of the CCM where the yellowfin, bigeye and skipjack tunas and swordfish will be imported, and
  - b) the WCPFC Secretariat.

22. The WCPFC Secretariat shall extract from the validated TTSCCs or communicated under paragraph 21 above the information marked with an asterisk in **Annex 1** or **Annex 2** forms and enter this information in a database on a password protected section of its website, as soon as practicable.

At its request, the Scientific Committee shall have access to the catch information contained in the database, except the vessel names.

23. Each CCM shall ensure that its competent authorities, or other authorized individual or institution, take steps to identify each consignment of yellowfin, bigeye and skipjack tuna and swordfish imported into or exported or re-exported from its territory and request and examine the validated TTSCC(s) and related documentation of each consignment of yellowfin, bigeye and skipjack tuna and swordfish.

These competent authorities, or authorized individuals or institutions, may also examine the content of the consignment to verify the information contained in the TTSCC and in related documents and, where necessary, shall carry out verifications at with the operators concerned.

24. If, as a result of examinations or verifications carried out pursuant to paragraph 23, a doubt arises regarding the information contained in a TTSCC, the final importing CCM and the CCM whose competent authorities validated the TTSCC(s) or TTSRC (s) shall cooperate to resolve such doubts.

25. If a CCM involved in trade of yellowfin, bigeye and skipjack tuna and swordfish identifies a consignment with no TTSCC or no valid TTSCC, it shall notify the findings to the exporting CCM and, where known, the flag CCM.

26. Pending the examinations or verifications under paragraph 23 to confirm compliance of the yellowfin, bigeye and skipjack tuna and swordfish consignment with the requirements in the present measure and any other relevant measures adopted by WCPFC, the CCM shall not grant its release for import or export.

27. Where a CCM, as a result of examination or verifications under paragraph 23 and in cooperation with the validating authorities concerned, determines that a TTSCC or TTSRC is invalid, the import, export or re-export of the yellowfin, bigeye and skipjack tuna and swordfish products concerned shall be prohibited.

28. The Commission shall request the non-CCMs that are involved in import, export or re-export of yellowfin, bigeye and skipjack tuna and swordfish to cooperate with the implementation of the Catch Certification Scheme and to provide to the Commission data obtained from such implementation.

## PART V

### COMMUNICATION OF DATA

29. CCMs that validate TTSCCs in respect of their flag fishing vessels and/or TTSRCs, shall notify to the WCPFC Secretariat:
- (a) the name and full address of their authorities responsible for validating and verifying TTSCCs or TTSRCs, and
  - (b) the name, title, signature and sample impression of the stamp or the seal of the validating officials who are individually empowered.

This notification shall indicate the date at which this entitlement comes into force. A copy of the provisions adopted in national law for the purpose of implementing the yellowfin, bigeye and skipjack tuna and swordfish Catch Certification Scheme shall be communicated with the initial notification. Updated details on validating authorities, officials and national provisions shall be communicated to the WCPFC Secretariat in a timely fashion.

30. The information on validating authorities and officials transmitted by notifications to the WCPFC Secretariat shall be placed on a password protected page of the database on validation held by the WCPFC Secretariat. The list of the CCMs having notified their validating authorities, officials and the dates of entry into force of the entitlement shall be placed on a publicly accessible website held by the WCPFC Secretariat.

CCMs are encouraged to access this information to help verify the validation of TTSCCs and TTSRCs.

31. Each CCM shall notify to the WCPFC Secretariat the points of contact (name and full address of the authorities) that should be informed when there are questions related to TTSCCs or TTSRCs.
32. Notification pursuant to paragraphs 29, 30 and 31 shall be sent by CCMs to the WCPFC Secretariat, by electronic means, whenever possible.
33. CCMs shall provide to the WCPFC Secretariat a report each year by October 1 for the period from July 1 of the preceding year to June 30 of the current year to provide the information described in **Annex 3**.

The WCPFC Secretariat shall post these reports on a password protected section of the WCPFC website, as soon as practicable. At its request, the Scientific Committee shall have access to the reports received by the WCPFC Secretariat.

34. This measure will be revised during the WCPFC 2012 Annual Meeting, with the view of expanding the scope of application of the WCPFC Catch Certification Scheme to all tuna and tuna like species falling under the WCPFC competence as well as any other elements deemed to be revised.
