

**TO ALL COMMISSION MEMBERS, COOPERATING NON-MEMBERS,
PARTICIPATING TERRITORIES AND OBSERVERS**

**Circular No.: 2016/73
Date: 21 December 2016
No. pages: 15**

WCPFC13 Outcomes Document

Dear All,

Pursuant to rule 33(2) of the Rules of Procedures for the WCPFC, please find enclosed the Outcomes Document for WCPFC13 which lists the decisions taken at the WCPFC13. The same is also posted on the WCPFC13 meeting site. Should there be comments on the Outcomes Document, please submit them together with comments on the Summary Report of WCPFC13 which will be forwarded to CCMs and Observers in due course.

Best wishes and greetings for the festive seasons ahead.

Yours sincerely,

**Feleti Penitala Teo, OBE
EXECUTIVE DIRECTOR**

**COMMISSION
THIRTEENTH REGULAR SESSION**
Denarau Island, Fiji
5 – 9 December, 2016

PROVISIONAL OUTCOMES DOCUMENT

**WCPFC13-2016-outcomes
As at 20 December 2016**

Agenda Item 1.2 – Agenda

1. The agenda was adopted without amendment (**Attachment c, WCPFC13-2016-01_rev1**).

Agenda Item 2 – Report of the Executive Director

2. The Commission accepted the 2016 Annual Report of the Executive Director (**WCPFC13-2016-05**).

Agenda 4.1 Status of the Convention

3. The Commission noted the report on Status of Convention (**WCPFC13-2016-06**).

4.2 Update on Observer Status

4. The Commission noted the updated list of observers to the Commission (**WCPFC13-2016-07**).

4.3 Applications for Cooperating Non-Member status

4. WCPFC13 approved CNM status to Ecuador, El Salvador, Liberia, Thailand, and Vietnam for 2017.
5. WCPFC13 also approved CNM status to Mexico for 2017, subject to the payment of Mexico's 2016 assessed financial contribution by June 30 2017 (payment in the first semester) and its 2017 assessed contribution by December 31 2017 (payment in the second semester).

4.3.1 Participatory Rights of CNMs

6. WCPFC13 agreed to the following limits to be applied to the participatory rights of CNMs (Convention / CMM 2009-11):

a. In accordance with the WCPF Convention and its conservation and management measures and resolutions, the following participatory rights apply to Cooperating Non-Members (CNMs) for fisheries in the high seas within the WCPFC Convention Area.

b. In addition, unless otherwise specified below, CNMs may fish in waters under their national jurisdiction or other CCMs' national jurisdiction, in accordance with appropriate bilateral arrangements.

c. CNMs shall ensure vessels flying their flags comply with all provisions of the WCPFC Convention and the WCPFC conservation and management measures. In addition, CNM vessels will be placed on the WCPFC Record of Fishing Vessels (WCPFC RFV).

d. CCMs shall ensure that CNM fishing activities that are conducted in waters under their national jurisdiction in accordance with bilateral arrangements are consistent with all relevant conservation and management measures and provisions of the WCPF Convention.

e. Renewal of CNM status by the Commission will take into account compliance with the national laws and regulations of any licensing CCM, and all conservation and management measures and provisions of the WCPFC Convention. CCMs shall identify any violations by vessels flagged to a CNM and report on any investigations of such violations to the Secretariat for attention by TCC.

Participatory rights of each CNM in 2017

7. **Ecuador:** The participatory rights for fishing in the WCPO are limited to purse seine fishing, with no participatory rights for fishing on the high seas for highly migratory fish stocks in the Convention Area. Any introduction of purse seine fishing capacity is to be in accordance with paragraph 12 of CMM 2009-11 and CMM 2015-01 or its replacement measure.

8. **El Salvador:** The participatory rights of El Salvador for fishing in the WCPO are limited to purse seine fishing only. The total level of effort by purse seine vessels of El Salvador on the high seas shall not exceed 29 days in the Convention Area. Any introduction of purse seine fishing capacity is to be in accordance with paragraph 12 of CMM 2009-11 and CMM 2015-01 or its replacement measure.

9. **Liberia:** The participatory rights of Liberia are limited to reefer vessels to engage in transshipment activities, and bunker and supply vessels to support fishing vessels in the Convention area.

10. **Mexico:** It was noted that Mexico had participated in the work of the Northern Committee (NC) at NC 8, 9, 10, 11 and 12 and, noting the need for cooperation with the work of the NC particularly in regard to Pacific bluefin tuna, the Commission encouraged Mexico to continue to participate in the NC. Mexico does not intend to have a vessel presence in 2017. Any future introduction of purse seine fishing capacity is to be in accordance with paragraph 12 of CMM 2009-11 and CMM 2015-01 or its replacement measure.

11. **Panama:** The participatory rights of Panama in the WCPO are limited to the provision of carrier and bunker vessels. Panama's participatory rights also apply to vessels that supply food, water and spare parts to carrier vessels that engage in transshipment activities, provided that these vessels do not engage in activities supporting fishing vessels, including providing and/or servicing FADs. The SWG also noted that this does not result in any additional participatory rights in 2017 to the participatory rights granted to Panama in 2016.
12. **Thailand:** The participatory rights of Thailand in the WCPO are limited to the provision of carrier and bunker vessels only.
13. **Vietnam:** The participatory rights of Vietnam in the WCPO are limited to the provision of carrier and bunker vessels only.

WCPFC/IATTC Overlap Area

14. In accordance with the decision of WCPFC 9 regarding the management of the overlap area of 4°S and between 130°W and 150°W, vessels flagged to Ecuador, El Salvador and Mexico will be governed by the IATTC when fishing in the overlap area.
15. In accordance with the Data Exchange MOU agreed by both Commissions, fishing vessels flying the flag of a member of either the IATTC or WCPFC shall cooperate with the RFMO to which they are not a member by voluntarily providing operational catch and effort data for its fishing activities for highly migratory species in the overlap area.
16. For the purpose of investigation of possible IUU fishing activities and consistent with international and domestic laws, vessels flying the flag of a CNM that is a Contracting Party to the IATTC will cooperate with those coastal State members of the WCPFC whose EEZs occur in the overlap area by voluntarily providing VMS reports (date, time and position) to those coastal States when operating in the overlap area.

Amendment to be made to the CNM request template/form

17. WCPFC13 agreed, as originally recommended by TCC12, to include a column in the CNM application template where CNM applicants could indicate their interest in becoming a member of the Commission. The Secretariat was tasked with making the necessary amendment to the CNM request template.

Agenda Item 5 – List of Proposals

Proposal to amend the Scientific Data to be Provided to the Commission decision

18. The Commission agreed to adopt the revised ‘Scientific Data to be Provided to the Commission’ decision (**Attachment d**).
19. The Commission agreed that the following text from Indonesia could be recorded as report language in relation to decision on WCPFC13-2016-Dp04_rev1 on Scientific Data to be provided amendment: “WCPFC13 agreed that there is a technical difficulty for Indonesia to fulfil new request such as provision of discard data until the capacity building program including the data collection system is completed.”

Proposal to amend CMM 2010-02

20. The Commission agreed to adopt CMM 2016-02 Conservation and Management Measure for the Eastern High Seas Pocket (**Attachment e**), which will replace CMM 2010-02.

Proposal on Observer Safety

21. The Commission agreed to adopt CMM 2016-03 Conservation and Management Measure for the Protection of WCPFC Regional Observer Programme Observers (**Attachment f**).

Proposal to amend Charter Notification Scheme (CMM 2015-05)

22. The Commission agreed to adopt CMM 2016-05 Conservation and Management Measure for Charter Notification Scheme (**Attachment g**), which will replace CMM 2015-05.

Proposal to extend Port Coordinators Programme Trial

23. The Commission noted the report of the WCPFC Port Coordinators Programme Trial (2015–2016) (**WCPFC13-2016-26**) and tasked TCC13 to further consider the recommendations to extend the Port Coordinators Programme.

Proposed terms for a Review of the Compliance Monitoring Scheme

24. The Commission approved the Terms for a Review of the Compliance Monitoring Scheme which is to occur in 2017 (**Attachment h**).

List of Obligations to be assessed by the Compliance Monitoring Scheme.

25. Regarding the list of obligations to be assessed, the FFA members expressed concern to the exclusion of paragraph 3 of CMM 2013-06, which relates to the impacts of new proposals on SIDS and territories. Other CCMs opined that the provisions of that paragraph are very important, and that the Commission should assess its implementation. However, as currently worded, the obligation is placed on the Commission rather than on the proponents of new proposals, so it might be difficult for the TCC to review compliance in the context of the Compliance Monitoring Scheme (CMS).
26. The Commission agreed that as stated in the measure, it has an obligation to apply these questions in considering new proposals; and that it will continue to do so using the current practice of having this task undertaken by the specific proponents in order to inform the Commission's consideration.
27. The Commission also agreed that at its annual session in 2017, it would review paragraph 3 of CMM 2013-06 and consider possible amendments to facilitate assessment of its implementation in the CMS.
28. The Commission adopted the updated list of obligations to be assessed by the Compliance Monitoring Scheme (**Attachment i**).

Agenda Item 6 – IUU List

WCPFC IUU list

29. The Commission adopted the 2017 WCPFC IUU Vessel List (**Attachment j**).

General recommendations – WCPFC IUU list

30. The Commission tasked the Secretariat with including the names of the vessel masters, if available, into the WCPFC IUU Vessel List.

31. The Commission tasked TCC with investigating options to address the circumstances of vessels remaining on the WCPFC IUU Vessel List for many years.

32. The Commission agreed that the master's nationality is included alongside the master's name into the WCPFC IUU Vessel List; and where the vessel is not listed on the Record of Fishing Vessels and the master's name and nationality are not known, the flag State is responsible for providing the name and nationality of the master, so that these details can be included into the WCPFC IUU Vessel List.

AGENDA ITEM 8. HARVEST STRATEGY

8.1 Management objectives (all species)

33. The Commission accepted the suggested initial list of performance indicators for tropical purse-seine fisheries for the purpose of the evaluation of Harvest Control Rules as developed by the Small Working Group on Management Objectives at WCPFC13 (This list is attached at **Attachment k**).

8.2 Acceptable levels of risk (all species)

34. After discussion of the proposals of the FFA members and the USA, and based on the recommendation of the Small Working Group on Acceptable Levels of Risk the Commission agreed to:

- i) not specify, at this time, acceptable levels of risk of breaching the limit reference point for each stock;
- ii) consider any risk level greater than 20 percent to be inconsistent with the LRP related principle in UNFSA (as referenced in Article 6 of the Convention) including that the risk of breaching limit reference points be very low; and
- iii) determine the acceptability of potential HCRs where the estimated risk of breaching the limit reference point is between 0 and 20%.

8.3 Rebuilding timelines (bigeye)

35. In accordance with the workplan for the adoption of harvest strategies under CMM 2014-05 the Commission is scheduled to agree a timeframe for rebuilding bigeye tuna to [or above] its LRP.
36. The Commission agreed to an interim timeframe of up to ten years for rebuilding the bigeye tuna stock to the agreed Limit Reference Point of $0.2SBF=0$.
37. The Commission shall use this timeframe in its development and evaluation of strategies and conservation and management measures relevant to the rebuilding of bigeye tuna. Amongst other matters, the Commission will consider the probability of the bigeye stock being at or above the limit reference point at the end of the rebuilding timeframe.

8.4 Target reference point (SP albacore)

38. WCPFC13 requested that existing analyses of the implications of different Target Reference Point (TRP) levels – in terms of total catch and effort changes required – should be re-circulated to CCMs by FFA before the end of December 2016, and that the Scientific Services Provider assist CCMs in understanding the economic implications of different TRPs for their vessels before SC13.
39. WCPFC13 agreed to defer the possible adoption of an interim Target Reference Point for the South Pacific Albacore stock, which had originally been agreed to take place in 2015 under the Harvest Strategy Work Plan, until December 2017 at the latest.
40. The Commission directed that further discussion of the TRP should take place over the course of 2017 as part of the ongoing consultative process for the development of a Bridging Measure for the Conservation and Management of the South Pacific Albacore stock, and should include a report on progress by the Convenor of that process to the 13th WCPFC Scientific Committee.

8.8 Review of Work Plan

41. The Commission adopted the Updated Harvest Strategy Work Plan (**Attachment I**). The Secretariat was tasked with documenting progress achieved under the Harvest Strategies agenda item in the form of an annex to the Harvest Strategy Work Plan to serve as a reference document to track progress against the agreed work plan.

AGENDA ITEM 9. WCPO TUNA STOCKS

9.2 Review of CMM 2015-01 (Bigeye, skipjack, yellowfin)

42. In reference to CMM 2015-01 paragraph 61, the Commission noted that the SPC evaluation (**WCPFC13-2016-15**) had reviewed CMM 2015-01.

43. In reference to CMM 2015-01 paragraphs 28 and 43, the Commission agreed that no limits for yellowfin tuna would apply in 2017 for purse seine and longline fisheries. The Secretariat was tasked with including a clarifying note to this effect in the update of CMM 2015-01.
44. In reference to CMM 2015-01 paragraphs 25 and 26, the Commission agreed that the provisions for 2016 would apply in 2017.
45. In reference to CMM 2015-01 paragraph 40, the Commission agreed that the limits in Attachment F for 2017 would apply in 2017.
46. Without agreement on new language that the Chair had provided in **WCPFC13-2016-38**, the Commission accepted **WCPFC13-2016-DP01**, which maintained the existing language and added some clarifying language. The Commission agreed that footnote 5 of Paragraph 18 of CMM 2016-01 is replaced by the following text: “The high seas FAD closure in paragraph 18 does not apply in 2017 to a CCM that has achieved a verifiable reduction in bigeye catches by its purse seine vessels to 55% from current levels (2010-2012), to be reviewed on the basis of the advice of the Scientific Committee. The measures that the Philippines will take are in Attachment C. A CCM that has qualified for the above mentioned exemption shall maintain a verifiable reduction in bigeye catches by its purse seine vessels to 55% from the reference levels (2010-2012) also in the course of 2017.”
47. The Commission agreed to adopt CMM 2016-01 Conservation and Management Measure for Bigeye, Yellowfin and Skipjack tuna in the Western and Central Pacific Ocean (**Attachment m**), which will replace CMM 2015-01.

9.3 Review of CMM 2015-02 (SP albacore)

48. WCPFC13 agreed to task New Zealand, on behalf of FFA, with advising members early in 2017 of the proposed process for progressing the Bridging CMM on SP Albacore.

9.5 Review of CMM 2015-04 (Pacific bluefin tuna)

49. The Commission accepted the report of the extraordinary meeting of the Northern Committee at the margins of WCPFC13 (**Attachment n**).
50. The Commission agreed to adopt CMM 2016-04 Conservation and Management Measure to establish a multi-annual rebuilding plan for Pacific Bluefin tuna (**Attachment o**), which will replace CMM 2015-04.

9.6 Bridging Tropical Tuna CMM

51. WCPFC13 noted the following issues would also be progressed as part of or alongside the further development of the Bridging Tropical Tuna measure: purse seine capacity management and high seas transshipment controls.
52. WCPFC13 agreed on the following process for progressing the development of the Bridging Tropical Tuna CMM:

- a. commence work on the Bridging CMM electronically in the early part of 2017, focussing on the structure of the measure and provisions that are not dependent on scientific advice (noting the intention to move MCS measures into existing MCS measures as needed). Best efforts will be made to make this electronic process as inclusive as possible.
- b. task the Secretariat with exploring options and potential funding for hosting a WCPFC meeting following SC13, to further progress the development of the Bridging Tropical Tuna CMM.

AGENDA ITEM 10. BYCATCH MITIGATION

10.1 Sharks

53. WCPFC13 requested that SC13 and TCC13, with support from the Secretariat, work towards the development of a comprehensive approach to shark and ray conservation and management with a view to adopting a new CMM at the Commission's annual meeting in 2018. The new CMM should seek to i) unify the WCPFC's existing shark CMMs; ii) take account of relevant national and international policies and measures; and iii) provide a framework for adopting new components as needs and datasets evolve. Elements that could be considered for the new CMM include:

- policies on full utilization/prohibition on finning;
- no retention policies;
- safe release and handling practices;
- gear mitigation, size limits or closures;
- management plans/catch limits;
- key species and their assessment schedules;
- species-specific limit reference points; and
- any data reporting requirements beyond those contained in "Scientific Data to be Provided to the Commission."

10.3 Others

Mobulas and Rays CMM

54. WCPFC13 adopted the following:

1. CCMs shall record where possible, through observer programs, the number of discards and releases of Manta and Mobula rays with indication of species (to the best extent possible), length, sex, status (dead or alive) and location caught.
2. Manta and Mobula rays shall be considered WCPFC key shark species for assessment and thus listed under the Shark Research Plan, noting that data gaps may preclude a traditional stock assessment approach.
3. SC13 shall review, as appropriate, a revision of the ROP minimum standards data fields and develop safe release guidelines for Manta and Mobula rays, with a view to their adoption by WCPFC14.

AGENDA ITEM 11. ADOPTION OF REPORTS FROM SUBSIDIARY BODIES, INTERSESSIONAL WORKING GROUPS AND OTHER WORKSHOPS

11.1 SC12

55. The Commission adopted the SC12 Summary Report (**WCPFC13-2016-SC12**), noting the recommendations with budgetary implications would be considered by FAC.

11.2 NC12

56. The Commission adopted the report of NC12 (**WCPFC13-2016-NC12**).

57. However, in adopting the report, WCPFC13 requested the Northern Committee to take due account of the following suggestions in accordance with Annex 1 of the Rules of Procedure:
- a. that NC13 develop conservation and management measures for adoption at WCPFC14 to rebuild the Pacific Bluefin tuna stock to 20% SBF=0 levels at the latest by 2034
 - b. that NC13 develop an emergency rule to be adopted at WCPFC14 which stipulates specific rules all CCMs shall comply with when drastic drops in recruitment are detected. For this purpose, the ISC is requested to define a drastic recruitment drop and associated risks.

11.3 TCC12

58. The Commission, in respect of TCC12 recommendation paragraph 201, approved the updated Standards, Specifications and Procedures for the Commission VMS (**Attachment p**).

59. The Commission, in respect of TCC12 recommendations in paragraphs 275 and 448, approved the updated TCC Workplan 2016-2018 (**Attachment q**).

60. The Commission adopted the TCC12 Summary Report (**WCPFC13-2016-TCC12**).

11.3.1 CDS – IWG

61. The Commission adopted the Summary Report of the CDS-IWG03 (**WCPFC-TCC12-2016-24_rev1**), and noted the update from the FFA Secretariat on progressing the development of draft CDS standards (**WCPFC13-2016-29**).

62. The Commission noted that FAC had not allocated budget for a meeting of the CDS-IWG in 2017.

11.3.2 ER/EM – IWG

63. The Commission adopted the Summary Report of the ERandEM Working Group second meeting (**WCPFC-TCC12-2016-17**) and noted the update on progressing the development of draft standards, specifications and procedures for Electronic Reporting (**WCPFC13-2016-28**).

64. The Commission adopted the standards, specifications and procedures for Electronic Reporting, which presently include E-reporting standards for operational catch and effort data (**Attachment r**).

65. The Commission noted draft E-reporting standards for observer data, high seas pocket reporting and reporting in the event of VMS malfunction should continue to be revised based on comments provided by CCMs in 2017.

66. The Commission supported TCC12 recommendation (TCC12 para 330) that the ERandEMWG continue its work under the same terms of reference for another two years.

67. The Commission noted that FAC had allocated a budget for a meeting of the ERandEMWG in 2017, but agreed that a formal meeting of the ERandEMWG in 2017 was not necessary.

11.4 FAD Management Options - IWG

68. The Commission adopted the Report of the second meeting of the FADMgmtOptions-IWG (**WCPFC13-2016- FADMgmtOptions-IWG02_rev2**), and agreed that the outcomes therein should be further considered at SC13 and TCC13.

69. The Commission noted the invitation from ICCAT related to the 2017 FAD-IWG Joint tuna RFMO meeting (**WCPFC13-2016-35**). The Secretariat was tasked to convey WCPFC's regrets to the ICCAT Secretariat.

AGENDA ITEM 12. ADOPTION OF FINAL COMPLIANCE MONITORING REPORT

70. The Commission accepted the Final Compliance Monitoring Report (**Attachment s**).

71. In respect of TCC12 recommendation paragraph 27, WCPFC13 discussed and agreed to maintain the due dates for Annual Report Part 1 and Annual Report Part 2 in 2017.

AGENDA ITEM 14. REPORT OF THE TENTH FINANCE AND ADMINISTRATION COMMITTEE

14.1 Report of the Tenth Finance and Administration Committee and 2017 Annual Budget

72. The Commission adopted the Report of the Tenth Session of the FAC (**WCPFC13-2016-FAC10**), including the 2017 budget of USD \$7,799,392 and indicative budgets for 2018 and 2019 of USD 8,174,205 and USD 8,201,857 respectively (**Attachment t**).

AGENDA ITEM 15. ADMINISTRATIVE MATTERS

15.1 Strategic Plan

73. The Commission noted the draft Strategic Plan prepared by Consensus Building Institute (**WCPFC13-2016-31**).

74. The Commission acknowledged progress on the draft Strategic Plan; and

75. WCPFC13 tasked the Secretariat to work with interested CCMs and Observers to further refine the draft Strategic Plan and to initiate development of the Corporate Plan.

15.2 Participation of Observers

76. The Commission recognized that Article 21 of the WCPFC Convention provides for the Commission to promote transparency in its decision-making processes and other activities.

77. The Commission agreed that observers from non-governmental organizations be required to pay a reasonable fee for participation at meetings of the Commission, to contribute to the additional expenses generated by their participation, as determined annually by the Executive Director, taking into account international practice.

78. The Commission agreed that the fee would be charged on registration and would be charged only for participation at Commission meetings, unless otherwise decided by the Commission.

79. The Commission agreed to develop and adopt intersessionally in time for use at TCC13 guidelines to enable the participation of NGO observers at closed meetings of the Commission and its subsidiary bodies under conditions which would ensure the confidentiality and non-disclosure of any information learned as a result of that participation, and sanctions for failure to comply with the rules and procedures relating to participation.

15.3 Memoranda of Cooperation with CCSBT

80. . The Commission agreed that the Memorandum of Cooperation on the Exchange and Release of Data with CCSBT should be signed (**Attachment v**).

81. The Commission agreed that the Memorandum of Cooperation on the Endorsement of WCPFC ROP Observers for Observing Transshipments of Southern Bluefin Tuna on the High Seas of the WCPFC Convention Area with CCSBT should be signed (**Attachment w**).

15.4 Research Projects

82. The Commission noted the updates on the ABNJ project (**WCPFC13-2016-37**) and WPEA project (**WCPFC13-2016-36**).

15.5 Election of officers

83. The Commission made a number of appointments to Commission positions:

- a. Rhea Moss-Christian (RMI) was appointed to continue as Commission Chair;
- b. Jung-re Kim (Korea) was appointed as the new Commission Vice-Chair;
- c. Berry Muller (RMI) was appointed to continue as SC Chair, and was thanked for taking on the role intersessionally and chaired SC12;
- d. Masanori Miyahara (Japan) was appointed to continue as NC Chair;
- e. Michael Tosatto (USA) was appointed to continue as NC Vice-Chair;
- f. Alexa Cole (USA) was appointed to continue as TCC Chair;
- g. Monte Depaune (Nauru) was appointed as the new TCC Vice-Chair;
- h. Magele Eteuati Ropeti (Samoa) was appointed the new FAC Co-Chair on the first day of WCPFC13 to ensure the continuation of the co-chairing arrangement and the efficient progression of FAC work in the margins of the meeting;

15.6 Future meetings

84. The Commission agreed that:

- a. SC13 would be held from 9-17 August 2017 in Rarotonga, Cook Islands;
- b. NC13 would be held from 28 August to 1 September 2017 in Korea, with the venue to be confirmed;
- c. TCC13 would be held from 27 September to 3 October 2017 in Pohnpei, FSM;
- d. WCPFC14 would be held from 4-8 December 2017 in the Philippines, with the venue to be confirmed; and

e. FAC11 would be held immediately prior to WCPFC14.

AGENDA ITEM 16. OTHER MATTERS

85. The Commission noted RMIs intention to progress a proposal for a WCPFC response related to addressing the issue of marine debris.

DRAFT LIST OF ATTACHMENTS FOR WCPFC13 DRAFT SUMMARY REPORT
(note order and numbering of attachments will change)

	WCPFC13 List of Participants
	Opening Statements - ED, WCPFC Chair
Attachment c	WCPFC13 Agenda – as adopted (WCPFC13-2016-01_rev1)
Attachment d	Agreed revised decision on ‘Scientific Data to be Provided to the Commission’
Attachment e	CMM 2016-02 Conservation and Management Measures on the Eastern High Seas Pocket
Attachment f	CMM 2016-03 Conservation and Management Measure for the Protection of WCPFC Regional Observer Programme Observers
Attachment g	CMM 2016-05 Conservation and Management Measure for Charter Notification Scheme
Attachment h	Approved terms for a Review of Compliance Monitoring Scheme in 2017
Attachment i	Agreed revised list of obligations to be assessed by the Compliance Monitoring Scheme
Attachment j	WCPFC IUU vessel list 2017
Attachment k	Suggested initial list of performance indicators for tropical purse-seine fisheries for the purpose of the evaluation of Harvest Control Rules
Attachment l	Revised Harvest Strategy Workplan, with notes on record of outcomes from WCPFC13
Attachment m	CMM 2016-01 Conservation and Management Measure for Bigeye, Yellowfin and Skipjack tuna in the Western and Central Pacific Ocean.
Attachment n	Outcomes of the Extraordinary Meeting of NC
Attachment o	CMM 2016-04 Conservation and Management Measure to establish a multi-annual rebuilding plan for Pacific Bluefin Tuna
Attachment p	Updated VMS SSPs
Attachment q	Updated TCC Workplan 2016-2018
Attachment r	ER Standards
Attachment s	Final Compliance Monitoring Report covering 2015 activities
Attachment t	Summary Report of 10 th Regular Session of Finance and Administrative Committee
Attachment v	WCPFC13 endorsed MoC with the CCSBT on data exchange
Attachment w	WCPFC13 endorsed MoC with the CCSBT on transshipment
