

**NORTHERN COMMITTEE
FIFTEENTH REGULAR SESSION**

Portland, Oregon, United States of America
3 – 6 September 2019

INDICATIVE SCHEDULE

WCPFC-NC15-2019/04

The Chair wants to proceed the meetings as efficiently as possible. While Pacific bluefin tuna will be discussed mainly in the joint WG meeting this year and needs substantial time to complete the discussion, NC15 has other important issues to consider and it will also needs ample time for discussion. That is why the following schedule is just indicative. I will propose to change it from time to time in reviewing the progress of discussion. For example, if the joint WG meeting needs recess to produce its draft report on Wednesday or on Tuesday morning, I will call the NC session during that recess to use time efficiently. I will propose such a schedule change well in advance during the week so as to ensure that all the participants can participate in discussion on NC agenda items of their concerns.

WCPFC NC15
