

TECHNICAL AND COMPLIANCE COMMITTEE

Fifteenth Regular Session 25 September – 1 October 2019 Pohnpei, Federated States of Micronesia

COMPILED INFORMATION ON PACIFIC BLUEFIN TUNA

(FISHING EFFORT AND CATCH)

WCPFC-TCC15-2019-IP12_rev1¹ 18 September 2019

Secretariat

¹ The original version of TCC15-2019-IP12 was posted for NC15 Meeting on 29 August 2019 as **WCPFC-NC15-2019/WP-02.** This rev 1 was posted on NC15 Meeting page on 18 September 2019 – the only change was to include some additional information in footnote 3 that was inadvertently omitted when the original version was prepared.

NORTHERN COMMITTEE FIFTEENTH REGULAR SESSION Portland, WA, USA 3 – 6 September 2019

COMPILED INFORMATION ON PACIFIC BLUEFIN TUNA (FISHING EFFORT AND CATCH)

WCPFC-NC15-2019/WP-02

Secretariat

According to Paragraph 2-4 of the CMM 2018-02, fishing effort and catch of Pacific bluefin tuna are compiled based on Member's reports, which are annexed as Table 1 and 2, respectively.

2. CCMs shall take measures necessary to ensure that:

(1) Total fishing effort by their vessel fishing for Pacific bluefin tuna in the area north of the 20° N shall stay below the 2002–2004 annual average levels.

(2) All catches of Pacific bluefin tuna less than 30 kg shall be reduced to 50% of the 2002–2004 annual average levels. Any overage or underage of the catch limit shall be deducted from or may be added to the catch limit for the following year. The maximum underage that a CCM may carry over in any given year shall not exceed 5% of its annual initial catch limit.

3. CCMs shall take measures necessary to ensure that all catches of Pacific Bluefin tuna 30kg or larger shall not be increased from the 2002-2004 annual average levels¹. Any overage or underage of the catch limit shall be deducted from or may be added to the catch limit for the following year. The maximum underage that a CCM may carry over in any given year shall not exceed 5% of its annual initial catch limit. However, in 2018, 2019, and 2020 CCMs may use part of the catch limit for Pacific bluefin tuna smaller than 30 kg stipulated in paragraph 2 (2) above to catch Pacific bluefin tuna 30 kg or larger in the same year. In this case, the amount of catch 30 kg or larger shall be counted against the catch limit for Pacific bluefin tuna 30 kg or larger to catch Pacific bluefin tuna 30 kg or larger to catch Pacific bluefin tuna 30 kg or larger to in Section 5 of Harvest Strategy, the implications of this special provision in terms of PBF mortality and stock rebuilding probabilities in 2020. Based on that review, in 2020 the Northern Committee will determine whether it should be continued past 2020, and if so, recommend changes to the CMM as appropriate.

4. CCMs shall report their 2002–2004 baseline fishing effort and <30 kg and >=30 kg catch levels for 2013 and 2014, by fishery, as referred to in paragraphs 2 and 3, to the Executive Director by 31 July 2015. CCMs shall also report to the Executive Director by 31 July each year their fishing effort and <30 kg and >=30 kg catch levels, by fishery, for the previous 3 year, accounting for all catches, including discards. The Executive Director will compile this information each year into an appropriate format for the use of the Northern Committee.

The information in the Tables below will be modified subject to any further updates from Members.

¹ CCMs with a base line catch of 10 t or less may increase its catch as long as it does not exceed 10 t.

Table 2. Catches (mt), including discards, of Pacific bluefin tuna *in the Convention Area* (include all the fisheries in the previous table, plus all other fisheries that catch any Pacific bluefin tuna)

 3 Catch limit for purse seine fishery is managed on a calendar year basis, while that for coastal fisheries is managed on a fishing yea basis (1 July – 30 June). Catches on a fishing year basis is as follows.

- 1st management period (January 2015 December 2015 for purse seine fishery, January 2015 June 2016 for coastal fisheries)
 <30kg: 3,096t;
 - ≥30kg: 3,871t
- 2nd management period (January 2016 December 2016 for purse seine fishery, July 2016 June 2017 for coastal fisheries) <30kg: 4,341t;

≥30kg: 4,368t

• 3rd management period (January 2017 – December 2017 for purse seine fishery, July 2017 – June 2018 for coastal fisheries) <30kg: 3,405t

≥30kg: 4,940t

4th management period (January 2018 – December 2018 for purse seine fishery, July 2018 – March 2019 for coastal fisheries)
 <30kg: 2,277 t

≥30kg: 3,810 t
