¹⁶ In 2024, China controlled the fishing effort limit for albacore tuna north of the equator through total fishing days control (China's total fishing days being 1,250 days).

¹⁷ Fiji do not have any vessels targeting North Pacific Albacore in the NP Ocean.

¹⁸ Korea does not have any vessels targeting directly North Pacific albacore in the North Pacific Ocean.

Table 2-1. As requested by the NC12 (Paragraph 57) related to Paragraph 2 in CMM 2005-03, CCMs are requested to report on how to control their fishing effort fishing for North Pacific albacore by indicating, for example, limiting vessels, fishing days, licenses, or some other measures.

CCM	Area	Fishery	Regulation of fishing effort
Canada	N Pacific	ALB troll	<p>Canada issues domestic “CT” fishing licenses for Albacore Tuna. The CT license is intended to act as a management measure to strengthen management of the domestic tuna fishery, and help ensure Canada is meeting international obligations related to effort. As of 2013, commercial license holders wanting to harvest tuna are required to hold a primary license (with Schedule II privileges) and apply for/receive a separate CT (Tuna) license. The CT license authorizes fishing of Pacific Albacore tuna in Canada’s Exclusive Economic Zone (EEZ) and on the high seas under separate license conditions. The CT license is vessel-based and must be renewed annually.</p> <p>Canadian license holders without a primary license are able to access tuna in international high seas waters through “Section 68 High Seas” licenses. The Section 68 license is intended to act as a management measure to strengthen management of the tuna fishery in the high seas, and help ensure Canada is meeting international obligations related to effort. The Section 68 licence must be renewed annually.</p>
	CA only	ALB troll	<p>Canada issues domestic “CT” fishing licenses for Albacore Tuna. The CT license is intended to act as a management measure to strengthen management of the domestic tuna fishery, and help ensure Canada is meeting international obligations related to effort. As of 2013, commercial license holders wanting to harvest tuna are required to hold a primary license (with Schedule II privileges) and apply for/receive a separate CT (Tuna) license. The CT license authorizes fishing of Pacific Albacore tuna in Canada’s Exclusive Economic Zone (EEZ) and on the high seas under separate license conditions. The Section 68 license is intended to act as a management measure to strengthen management of the tuna fishery in the high seas, and help ensure Canada is meeting international obligations related to effort. The Section 68 license must be renewed annually.</p> <p>Canadian licence holders wishing to fish for tuna in the WCPFC Convention Area will need to request amended Conditions of Licence from the Canadian Tuna Resource Manager. These amended Conditions of Licence will be issued once it has been confirmed that the various requirements specific to harvesting in the WCPFC Convention Area have been met.</p>
China	N Pacific	LL	The number of fishing vessels is limited by the license system.

Cook Islands	N Pacific	ALB troll	Not Applicable, CK currently has no troll vessels in the fishery
	N Pacific	LL	Limited by license.
Fiji	N Pacific	LL	Vessel Size class & capacity, Licenses and other measures specified in Offshore Fisheries Management Act 2012 & Offshore Fisheries Management Regulation 2014 and National Strategy for Fiji Fishing Vessels Operating in Areas Beyond National Jurisdiction.
Japan	CA only	LL Coast	The number of fishing vessels is limited by the license system.
		LL DW	The number of fishing vessels is limited by the license system.
		PL DW	The number of fishing vessels is limited by the license system.
Korea	CA only	LL DW	There has been no Korean flagged fishing vessel targeting for N.ALB. However, all authorized fishing vessels operating in the CA are required to report their catches including non-targeting species daily via the e-reporting system.
Philippines	-	-	<p>Not applicable</p> <p><i>Notes from 2023 Annual Report Part 1:</i></p> <p>833 MT(2024) - catches for this species are mainly coming from municipal or artisanal gears (e.g. hook-and-line) and this is not a target species for these gear/s.</p> <p>Fishing effort for municipal or artisanal gears (e.g., hook-and-line) are difficult to quantify, as recognized by the Commission there are some fleets such as the Philippines that has some practical difficulties compiling this information. Also, it would be important to note that Philippines do not target albacore (<i>Thunnus alalunga</i>), this species is mainly caught as bycatch and seasonal in nature.</p>
Chinese Taipei	N Pacific	ALB LL	<p>1.We have limited the number of our fishing vessels fishing for North Pacific albacore to stay below 25 since CMM 2005-03 was implemented. The vessel number is controlled when we issue the fishing permit every year.</p> <p>2.For other fishing vessels that are not allowed to fish for North Pacific albacore, their bycatches of this albacore would be monitored to stay below a certain ratio</p>
USA	N Pacific	ALB troll	The United States has a single fleet that fishes for North Pacific albacore in the Convention Area: the albacore troll fleet is based out of the U.S. West Coast. The albacore troll fleet is not currently subject to effort or catch controls, but permitting, VMS, and reporting (through vessel logbooks) requirements enable the United States to monitor the fishery, including levels of participation, fishing effort and catches. The United States will continue to monitor fishing effort and implement any controls needed to comply with paragraph 2 of the CMM, as well as with relevant decisions adopted in other RFMOs (IATTC).
	CA only	ALB troll	The United States has a single fleet that fishes for North Pacific albacore in the Convention Area: the albacore troll fleet is based out of the U.S. West Coast. The albacore troll fleet is not currently subject to effort or catch controls, but permitting, VMS, and reporting

			(through vessel logbooks) requirements enable the United States to monitor the fishery, including levels of participation, fishing effort and catches. The United States will continue to monitor fishing effort and implement any controls needed to comply with paragraph 2 of the CMM, as well as with relevant decisions adopted in other RFMOs (IATTC).
Vanuatu	N Pacific	ALB LL	Vanuatu has reviewed its baseline to use information on vessel's licensing data for the years 2002-2004 for vessel who fished for North Pacific Albacore. Information on Vessel days is estimated using the 2004 vessel days average (2004 as the year with the most data from the 3 baseline years) and this estimate is used to calculate the average Vessel days for the effort baseline. With this revision Vanuatu is in compliant with the measure and will continue to monitor fishing effort and implement any controls needed to comply with paragraph 2 of the CMM.

Subject: RE: NC21: submission of catch/effort data for NPA, PBF and NPSWO

Dear SungKwon,

Please find attached the Canadian NC21-WP-01 North Pacific albacore fishing effort updates.

Noting that Canada did not fish in the WCPFC CA in 2024 and Canada has no directed PBF fishery and no history of NP swordfish catch/effort.

Best,
Sarah

China

Importance: High

Dear SK,

According to statistics, China's **swordfish** catch north of the equator in 2024 did not exceed 200 tons; therefore, it does not meet the requirements of paragraphs 2 and 4 of the measure.

In 2024, China controlled the fishing effort limit for **albacore** tuna north of the equator through total fishing days control (China's total fishing days being 1,250 days), and the operating days of Chinese vessels fishing for albacore tuna north of the equator were less than 1,250 days.

In 2024, China had no longline fishery targeting **bluefin** tuna north of the equator, nor any bycatch of bluefin tuna.

If you have any questions regarding the information in the attachment, please do not hesitate to contact us. Thank you very much.

Regards,
Li Yan

Subject: RE: NC21: submission of catch/effort data for NPA, PBF and NPSWO

Kia orana SK,

Please find the 2024 updates for NP ALB/NP PBF and NP SWO catches related to the Cook Islands annual catch.

As you know, the Cook Islands do not currently target these species and have no fishing vessels operating north of 10 degrees north.

Thank you.

Tiare-Renee Nicholas

Subject: North Pacific Albacore catch and effort

Dear Secretariat,

I hope this email finds you well.

This is to report Korea's 2024 catch and effort of North Pacific Albacore as attached in accordance with paragraph 3 of CMM 2019-03. Please let me know should you need any clarification.

Thank you.

Sincerely,
Ilkang Na
Republic of Korea

Catch of albacore tuna in the WCPFC Convention Area of North Pacific

CCM	Area	Fishery	2024		
			No. of vessels	Vessel days	Catch(Kg)
Republic of Korea	north of the equator	Longline	0	0	471,211
		Purse seine	0	0	0

* No fishing efforts were directed at albacore in the Convention area north of the equator in 2024.

* All albacore catches in 2024 were bycatches.

Subject: REVISED: 2025 U.S. reporting requirement for WCPFC CMM 2019-03

Dear ED Moss-Christian,

Please accept the attached revised letter from Jason Philibotte for the annual U.S. reporting under WCPFC CMM 2019-03 for North Pacific albacore. We note that we had revised data to incorporate into the attached letter.

Specifically, the two numbers adjusted are in Table 1: the Pacific-wide U.S. sport catch for 2024 and the 2024 total.

Thanks and kind regards,
Emily
