### Overview of additional information provided and consequential updates to compliance statuses

8. Paragraph 42 of CMM 2023-04 allows CCMs to submit additional information requiring only administrative consideration by the Secretariat to address information gaps. At TCC21, CCMs decided which obligations could be satisfied through the provision of additional information. The deadline for CCMs to submit their additional information was 21 days after TCC21 (on or before 21 October 2025).
9. To support this process, the new online CMR facility remained open for submissions, listing relevant obligations for which CCMs could submit their additional information. Guidance on using the system was available through the [WCPFC online support system](#).
10. A summary of the obligations with issues that TCC21 identified as eligible for the provision of additional information is shown in **Table 1**.
11. In accordance with paragraph 43 of CMM 2023-04, the Secretariat reviewed additional information and updated the relevant CCM compliance status in accordance with CMM 2023-04 paragraph 42. A summary of these updates, along with the pCMR is submitted to the Commission for its consideration. The deadline for the Secretariat to provide the updated provisional CMR was 11 November 2025 (21 days after the CMM 2023-04 paragraph 42 deadline).
